“Labor Savings Devices”

Model SS60 Sample Sizer

U.S. Patent Applied For

Actual sample dimensions are 3" dia x 10" long.
Polyethylene bags & tape dispenser sold separately

FEATURES:

- *Reduces loose 8 oz. cotton bale samples by 70% in less than 10 seconds.*
- *Creates warehouse space at no extra construction cost, yielding more space for bale storage.*
- *Reduces labor by eliminating rolling and stuffing samples into polyethylene bags.*
- *Stainless steel construction keeps samples clean & untarnished.*
- *Operates on 80 psi compressed air & 120 vac single phase power.*
- *Closing door starts semi-automatic operation.*
- *Stackable storage racks available in custom sizes; eliminates large cardboard boxes & racks.*
