

"Labor Savings Devices"

Model FDPTC

DOUBLE PORTED TRAMPER CYLINDER

To Fit the Fishburne CB-400 Press

FEATURES:

- *One set of original ports on same side for up to 40 BPH and one set of larger ports on opposite side for up to 60 BPH (Designed to anticipate higher gin capacity)*
- *Dimensionally interchangeable with original trampler cylinder supplied with your press.*
- *Includes 2" extra stroke needed to compress cotton below dogs at times when cotton is extra dry.*
- *Rated at 3000 PSI instead of 2000 PSI rating of original. (Thicker wall, larger welds)*
- *Welded construction without Tie-Rods (Eliminates leaks caused by unequally torqued Tie-Rods)*
- *High speed seals and chrome plated cylinder rod. Both extends life of cylinder.*
- *Non-Adjustable cushions omit leakage and improves control at ends of stroke.*
- *Covered by one-year warranty.*
