

"Labor Savings Devices"

Model FPJPSM

**PLATEN JACK PROXIMITY SWITCH MODIFICATION
To Fit the Fishburne CB-400 Press**

ADVANTAGES:

- *Senses when the Piston Rod is down and out of the way thus improving less down time.*
- *Eliminates the possibility of crash with Turntable thus protecting Platen Jack from damage.*
- *12MM Screw-In 24VDC Proximity Switch rated @ 5000 PSI (Made especially for Hydraulic Cylinders)*
- *Lighted 5-Meter-Long Cable with 90° Connector*
- *Machined Modifications are made to bottom of Platen Jack Cylinder only.*
- *Requires drilling (1) 7/8" Dia Hole in Platen Jack Mount on press.*
